The suffix indicates a reverse sequencing read of the insert. It does not necessarily reflect the orientation of the insert.

Plate: CINH 0013 row: g column: 23
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      cDNA Library Preparation: DOE
